DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3/23/26 has been entered.

Claim Objections

2. Claims 37-43 are objected to because of the following informalities: The phrase “A computer-readable medium” should be changed to “A computer-readable storage medium” to avoid 35U.S.C. 101 non-statutory, nonfunctional descriptive material, claim language. Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 30 and 37 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant

Art Unit: 2143

art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The disclosure lacks clear written description in a description “in response to user input at the first instant messaging client, generating a control message at the first instant messaging client, wherein the control message is configured to control execution of an application that executes separate from the first instant messaging client”. It is unclear how does the control message controls the execution of an application separate form the first instant messaging client?

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 30 and 37 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 30 and 37 are vague and indefinite because it is unclear how does the control message controls the execution of an application separate form the first instant messaging client?

Allowable Subject Matter

7. Claims 30-43 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Response to Arguments

8. Applicant's arguments with respect to claims 30-43 have been considered but are moot in view of the new ground(s) of rejection.
